

BAPPA HALDER

WEB DEVELOPER

West Bengal, India | +91 8838955446 | bappahalder2207@gmail.com | <https://github.com/bappa-halder>

PROFESSIONAL SUMMARY

Frontend and MERN Stack Developer with 2+ years of professional experience building responsive, scalable, and high-performance web applications. Proficient in React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Node.js, Express.js, and MongoDB. Experienced in developing secure REST APIs, implementing JWT authentication, managing application state with Redux Toolkit, and translating Figma designs into pixel-perfect user interfaces. Strong focus on performance optimization, reusable component architecture, cross-browser compatibility, and delivering clean, maintainable code in Agile development environments.

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript (ES6+), React.js, Redux Toolkit, Tailwind CSS, Bootstrap
Backend:	Node.js, Express.js, RESTful API Development
Database:	MongoDB, Mongoose
Authentication:	JSON Web Tokens (JWT), Role-Based Access Control (RBAC)
Tools & Tech:	Git, GitHub, Postman, VS Code, Vercel, Render
Core Concepts:	MVC Architecture, API Integration, CRUD Operations, Responsive Web Design, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

MERN Stack Developer Intern — Weavers Web Academy Jul 2025 – Mar 2026

- Engineered full-stack web applications utilizing React.js for the frontend and Node.js/Express.js for backend infrastructure.
- Designed and deployed robust REST APIs and integrated secure client-server communication using MongoDB databases.
- Implemented secure user authentication and authorization workflows utilizing JSON Web Tokens (JWT) and role based access.
- Managed complex application states efficiently across components by leveraging Redux for predictable state containers.

Frontend Developer — Pixel Consultancy Dec 2024 – Jul 2025

- Translated high-fidelity Figma designs into pixel-perfect, responsive, and mobile-first interfaces using HTML, CSS, and Bootstrap.
- Optimized website performance and assets, significantly improving load times and ensuring seamless cross-browser compatibility.
- Collaborated closely with UI/UX designers and backend engineering teams to ensure smooth UI integration and reliable data binding.

Frontend Developer — RK Web Solutions Apr 2024 – Dec 2024

- Built and maintained highly responsive websites using Webflow, tailoring structural styles to exact design specifications.
- Optimized user interfaces to enhance application execution speed, boost user engagement, and refine user experiences (UX).

Frontend Developer — Patel Information Technology Services Mar 2023 – Mar 2024

- Developed a unified library of reusable, modular frontend components to accelerate development workflows across web projects.
- Assisted senior developers in system debugging, frontend performance tuning, and rigorous cross-device UI functionality testing.

PROJECTS

Real Estate Web Application (Full-Stack MERN)

Live Demo: <https://realtyr-realestate.vercel.app>

GitHub Repository: <https://github.com/bappa-halder/realtyr.git>

- Architected a complete full-stack real estate platform using MongoDB, Express.js, React.js, and Node.js.
- Integrated Redux Toolkit for global state management, reducing unnecessary component re-renders and lags.
- Developed secure, role-based authorization and JWT authentication systems to protect user profiles and confidential listings.
- Built custom RESTful APIs to handle core CRUD operations for streamlined property management.

EDUCATION

Bachelor of Arts — West Bengal State University
